GR **Gabriel Raz** 0:16
Yep.

SU **Shayna Unterslak** 0:17
Yeah, go for it.

DF **Dean Feldman** 0:19
All right, what I did this week, or since Thursday, I understood what we were doing in Sprint 2. I did one of the main blocking issues last night. And yeah, we're just waiting for CRCE to come back. Otherwise, there's no blockers.

SU **Shayna Unterslak** 0:40
Okay, so what I did the last sprint is I just formally documented the sprinter requirements once we got heard back from our stakeholder and then I implemented the dependency cruiser into it so that our mono repo has some tools involved. For the next in the next few days, CRCD will be up by the end of the weekend. So I want to just issue #10.
I want to just go and see that we don't have anything that should cause major issues to try and avoid disaster over the weekend, as well as the testing documentation for the sprint.

LR **liora rosenberg** 1:23
So for this next from last sprint, we were told we need to update our documentation so that it actually is on theme with the cricket brand. So I've chosen the two issues that have to do with changing the theme and with putting our meeting links.
Also, onto documentation, so I'll do that.

BS **ben swartz** 1:50

Since the last thing since Thursday, I just switched up the issues that I had. I mean, to finish all the documentation and the requirements that are on the backlog, and since the spring 2 was put up, I looked at the issues and familiar with them, and I'm going to be taking up.

We should start in the day.

NS **Nadav Sundy** 2:17

Since the last sprint was just blocked by waiting for the new issues to come, and just some other issues, and then this sprint could just work on any front end tasks, especially, you know, showing the web overview to integrate the APR and any other changes we need.

GR **Gabriel Raz** 2:37

Since last sprint, I've familiarised myself with the Sprint 2 issues, and I'm going to assign myself to a few of the issues.

SU **Shayna Unterslak** 2:45

If you're talking, I can't hear a thing. Maybe that's just me.

GR **Gabriel Raz** 2:50

Hello!

NS **Nadav Sundy** 2:53

It was just you, I could hear.

SU **Shayna Unterslak** 2:55

I'm sorry.

GR **Gabriel Raz** 2:59

Must I repeat.

NS **Nadav Sundy** 3:06

Now, you're all good.

GR **Gabriel Raz** 3:07

Okay, cool.

DF **Dean Feldman** 3:14

Alright, good stuff, guys.
